pen-F

Available Colors:

Silver Black

Sleek lines. Precision controls. And Olympus' most advanced imaging technology. The new interchangeable lens PEN-F camera is ideal for professional street photographers, as a second camera for studio pros, and for anyone who loves vintage design and photography. It's all here: impeccable craftsmanship, superior resolution, and powerful in-body image stabilization for ultra sharp images.

- 20 MP Live MOS Sensor
- 50 MP High Res Shot Mode
- 5-Axis In-body Image & Video Stabilization
- Wi-Fi Wireless Control
- OLED Electronic Viewfinder
- Fully Customizable In-Camera Monochrome and Color Profile Control

## PEN-F ACCESSORIES

### **CAMERA GRIP ECG-4**

With its high-quality, robust metal construction, this professional grip ensures even clearer and sharper images. Once attached to your PEN-F, the grip's design gives you instant access to the battery compartment. The grip also has a quick shoe rail feature which allows one-touch mounting to compatible tripods and other mounting devices.

Retail \$129.99

### **BODY JACKET CS-47B**

This genuine leather body jacket is tailor-made to fit the design of the Olympus PEN-F and is securely fixed through a screw. The body jacket protects your PEN-F from scratches and the elements. Leather camera strap CSS-S109LL compliments this body jacket nicely (sold separately).

Retail \$52.99

### **CAMERA STRAP CSS-S109LL**

Extra-soft, high quality genuine leather camera strap. Securely fastens to the side of the camera. Fits perfectly to the design and quality of the Premium Leather Body Jacket CS-47B (sold separately).

Retail \$49.99

### **FISHEYE BODY CAP LENS BCL-0980**

As creative as a body cap can get, the Fisheye Body Cap 9mm f/8 Lens is a unique ultra-wide 18mm equivalent lens for Micro Four Thirds mirrorless cameras. Extremely slim, this body cap measures just 0.5" thick. The body cap lens has a manual focus lever that can be set to close up and infinity focus settings.

Retail \$99.99

### **BODY CAP LENS BCL-1580**

This 15mm f8.0 Body Cap Lens serves as a body cap when carrying the camera around without its interchangeable lens, and transforms to become a pan-focus snapshot lens to capture images. The lens has three glass lens elements in three groups and is only 0.4" thick. It can be used as a wide-angle lens equivalent with a single focal length of 30mm (35mm camera equivalent).

Retail \$49.99

### **FL-900R FLASH**

Weatherproof, high-intensity flash boasts a guide number of 58 meters (at ISO 100) and covers a wide range of focal lengths with an electronic zoom head. The built-in 1.5w LED light in the FL-900R is a useful tool as both a continuous source for video shooting and as a focus assist light when shooting stills. One-touch on/off control lets you quickly access 100 Lux power (at 1m) when you find yourself in low light situations.

Retail \$579.99

### **VINTAGE CAMERA BAG**

This vintage style camera bag includes adjustable/removable padded compartments. The bag measures 6.5" tall by 8" wide by 5" deep and can accommodate an Interchangeable Lens Camera body, several lenses and also accessories such as extra batteries. The PEN-F with grip attached fits nicely. There is also a pocket underneath the top flap and an adjustable shoulder strap.
