• To prevent causing battery leaks or damaging their terminals, carefully follow all instructions regarding the use of batteries. Never attempt to disassemble a battery or modify it in any way, solder, etc.

• If battery fluid gets into your eyes, flush your eyes immediately with clean, cold running water and seek medical attention immediately.

• If you cannot remove the battery from the camera, contact an authorized distributor or service center. Do not try to remove the battery by force.

• Damage to the battery exterior (scratches, etc.) may produce heat or an explosion.

• Always store batteries out of the reach of small children and pets. If they accidentally swallow a battery, seek medical attention immediately.

• Never subject batteries to strong shocks or continuous vibration by dropping or hitting.

• This may cause exploding, overheating, or burning.

• If a battery leaks, has unusual odor, becomes discolored or deformed, or becomes abnormal in any other way during operation, stop using the camera, and keep away from fire immediately.

• If rechargeable batteries have not been recharged within the specified time, stop charging them and do not use them.

• Do not use batteries with scratches or damage to the casing, and do not use batteries with unusual odors, or any other abnormality.

• The battery may become hot during prolonged use. To avoid minor burns, do not remove it immediately after using the camera.

• When storing the battery for a long period, select a cool location for storage.

• This camera uses one Olympus lithium ion battery. Use the specified genuine battery.

• There is a risk of explosion if the battery is replaced with the wrong battery type.

• Please recycle batteries to help save our planet's resources. When you throw away dead batteries, be sure to cover their terminals and always observe local laws and regulations.

• Do not allow children or animals/pets to handle or transport batteries (prevent dangerous behaviour such as licking, putting in mouth or chewing).

• Doing so may cause parts to deteriorate and, in some circumstances, cause the camera to catch fire. Do not use the charger if it is covered (such as a blanket). This could cause overheating, resulting in fire.

• Be careful with the strap when you carry the camera. It could easily catch on stray objects and cause serious damage.

• Do not leave the camera in places where it may be subject to extremely high temperatures.
