

M.ZUIKO DIGITAL ED 7-14MM F2.8 PRO AT F4.0, 1/1000, ISO 200

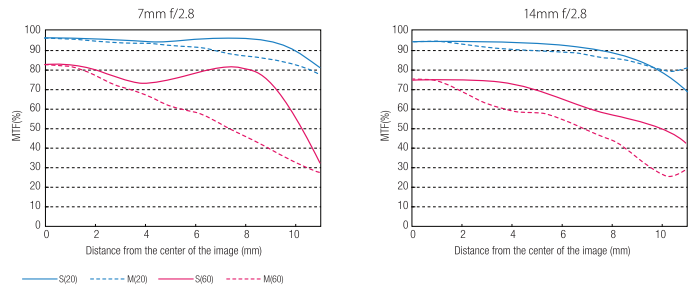

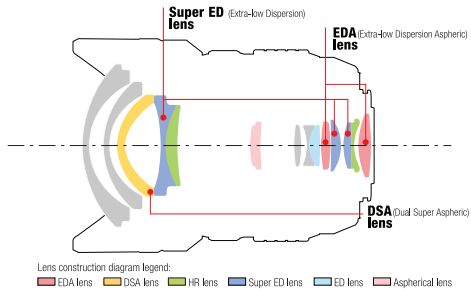

THE ULTRA-WIDE ANGLE OF VIEW

captures more of every scene, from sprawling cityscapes and mountain vistas to intimate close-ups, providing incredible detail all the way to the corners of the image without vignetting. For macro shooting, the 2.9-inch minimum focusing distance lets you move in close while still capturing an expansive background.
